Reasons For Allowance

1. The amendment filed 4/21/05 has been entered.
2. The following is an examiner's statement of reasons for allowance: The amendment filed 4/21/05 brings out the feature into all the independent claims that the means for determining the level of interest adaptively infers the level of interest, which in combination of the other features of the claims, and as explicitly interpreted in applicant's remarks 8/15/05, distinguish over the prior art of record. The remarks make clear that invention is a user interface combining user attention detecting means to a specific media content or object such as a gaze tracking device with an arousal level assessment mechanism to unobtrusively infer in real time a user's level of interest; furthermore the invention explicitly combines both these features to adaptively via statistics infer the level of interest in real time based on a set of observations on the state of user physical variables in the network, to infer most probable states for unobserved variables including level of interest. The claims as recited (independents: 1 amended – system detecting attention to media content, 12 amended – system detecting attention to an object (of media content), 23 amended – method detecting attention to a subject (of media content), 34 amended – method detecting attention to object (of media content), 45 amended – method detecting attention to media content and communicating level of interest as feedback, 53 amended – medium tangibly embodying machine readable instructions detecting attention to an object for detection

of level of interest in media content, 54 amended - medium tangibly embodying machine readable instructions detecting attention to media content and communicating level of interest as feedback, 55 amended – system detecting attention to media content and using an inference engine to infer the level of interest) are not set forth in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
